Mission

The mission of the WIL Mentor Program is to provide members with the opportunity to meet industry professionals who want to share their experience, knowledge and advice. Through the mentoring program WIL mentees receive guidance and support as they explore career enhancement and advancement.

Program Overview

The WIL leadership council is dedicated to provide professional development opportunities and experiences for our members. Mentees are selected through an application process and paired with mentors based on the mentees' areas of interest and availability of the mentors.

Facts about the Program

The NHLA WIL mentor program is designed to fulfill various purposes. For mentees, it recognizes up and coming leaders in the hospitality industry and provides resources for learning experience. It also gives women a chance to broaden their career horizons by exploring other departments or industry fields.

If participating as a mentor, the program allows experienced professionals to share their expertise, knowledge and guidance with a woman looking for career advancement and personal growth.

The program is an eight-week commitment for both parties - mentors and mentees.

Two-way communication is essential for the success of the program. Both the mentor and the mentee should be active participants in the program.

The NHLA WIL council provides guidelines and tips for a productive experience. However, it is up to the participants to work out a plan that is convenient for both parties.
